

How to obtain IASE designations:

ISF® and ISB® Level 1 (Advisory) & Level 2 (Specialist)

IASE awards professional designations in the field of ESG and Sustainability. To learn more about IASE's ESG-specific-qualification, please click [here](#).

IASE's Professional Designation Types and Levels

IASE's prestigious professional designations - INTERNATIONAL SUSTAINABLE FINANCE® (ISF®) and/or INTERNATIONAL SUSTAINABLE BUSINESS® (ISB®) - are universally recognised as evidence of the highest standards of knowledge, technical expertise, and professionalism the world over.

Whilst the ISF® designation is suited to ESG and Sustainability practitioners who work in the field of finance (e.g. banking, insurance, micro finance, wealth management, accounting, treasury management), the ISB® designation is specifically suited to ESG and Sustainability practitioners who work in all other non-finance related fields of business.

Each IASE designation recognizes 3 levels of proficiency, thus the levels represent a career progression path for ESG and Sustainability practitioners. Advisory/LEVEL 1 represents the Foundational Level, Specialist/LEVEL 2 represents the Intermediate Level, and Expert/LEVEL 3 represents the most Advanced Level.

This brochure focuses on the Level 1 & 2 certification requirements to obtain IASE's ISF® and ISB® professional designations.

The Level 1 Advisory examinations & certifications is not a prerequisite before obtaining Level 2. Any ESG or Sustainability practitioner may apply directly at the Specialist Level 2 should s/he qualify. The same rule will apply with respect to the Expert Level 3 examinations & certifications.

Ongoing Certification Requirements for ISF® and ISB® Advisory Level 1 & Specialist Level 2

Unlike academic qualifications which only attest to the holder's level of knowledge as at the date when they obtained the qualification, professional designations (such as ISF® and ISB®) are designed to confer assurance that the holder of the designation not only met certain knowledge, competency and ethical standards on a certain date, but it also attests to the fact that they stay current with the evolution of the ESG and the Sustainability profession.

This is quite crucial in ensuring that IASE, as an independent 3rd party, can continue to give assurance to the public and employers that our designation holders are, and continue to be, the most competent, ethical and professional ESG and Sustainability practitioners in the world.

Therefore, to retain the right to continue using any of the ISF® and ISB® designations, holders must commit to the following additional Ongoing Certification Requirements:

Commitment to Continuous Professional Development (CPD)

ISF® and ISB® Advisory Level 1 designation holders are required to undertake a minimum of 10 hours of additional and ongoing learning per annum.

ISF® and ISB® Specialist Level 2 designation holders are required to undertake a minimum of 15 hours of additional and ongoing learning per annum.

CPD is a lifelong learning process where an ESG and Sustainability practitioner systematically engages in activities that maintain abilities, skills and knowledge required for professional practice.

Designation holders are required to record and be able to submit evidence of their CPD activities for the yearly cycles to their local IASE member certification body for inspection.

IASE continually develops online courses that can help our designation holders to obtain the required training and thus meet their CPD requirement for retaining the designation. However, it is worth noting that there are many other ways of achieving your CPD requirements.

Please contact your local [IASE Member certification body](#) for more information in this regard.
